What Women Are Writing Us About Soaking Instead of Rubbing Clothes Clean

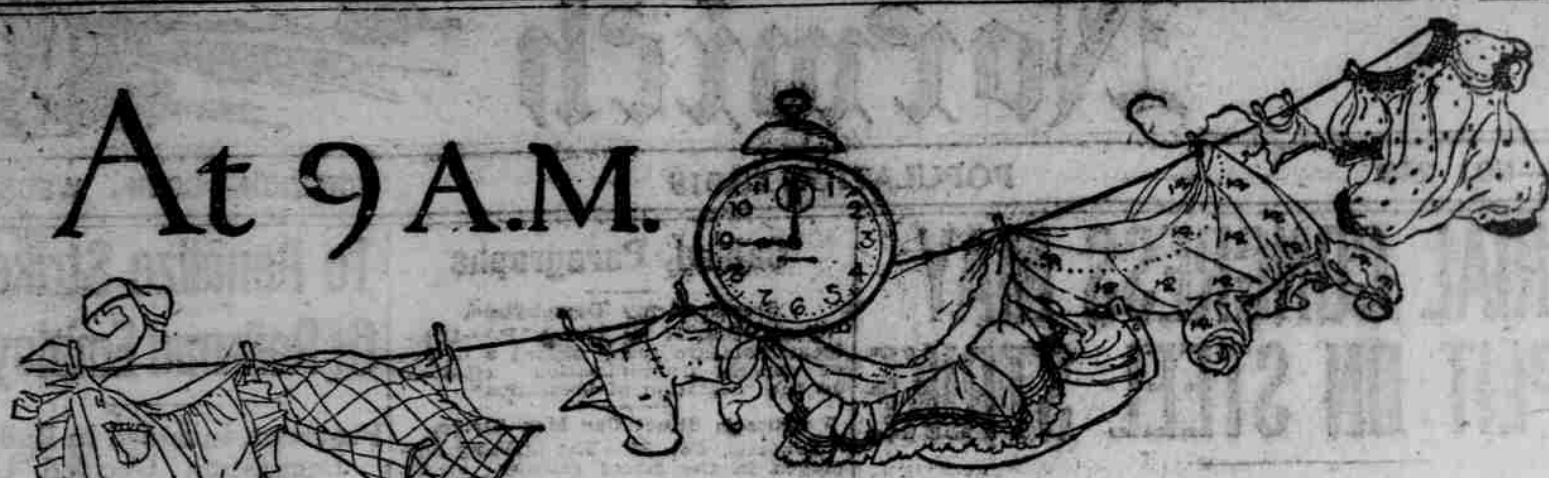

Women are so amazed at the results they are getting with our new soap product—Rinso—that many of them have been kind enough to write us of their enthusiasm.

They are so eager that all other women, too, should be freed from the drudgery of wash day by soaking and rubbing that they have given us permission to publish their letters.

We are very proud of these letters and glad to know that housewives have found they can really soak their clothes clean.

For it is the cleansing action of Rinso which does the work of rubbing—over night, or for at least three hours, that makes the dirt fall out of the rinsed water. "No boiling," they write us, "no rubbing—just soaking—and the clothes are clean! Only very soiled parts need the slightest rubbing—between your hands! It's just as you said in your announcement!"

You will be immensely interested in these letters. They will come out each week. LEVER BROS. CO., Cambridge, Mass. (Makers of Lux and Rinso).

Are your clothes on the line or—Are you just beginning the tiresome task of rubbing, rubbing?

At nine o'clock on Monday are you just beginning the day's dreary rubbing of clothes? With all the boiling and bluing and starching and hanging out still to do? Or are your clothes gaily flapping on the clothes line—snowy-white—immaculately clean?

Begin this week the new way of washing—have your clothes in the sun by nine o'clock!

Why this way takes so much less time

When you wash with Rinso, the new form of soap for the family washing, absolutely all you have to do is to soak the clothes and rinse them.

The pure, cleansing Rinso granules dissolve instantly. There's not a bit of solid soap to stick to the fabrics and injure them. There are no harsh cleansing agents to "eat" the cloth.

Soak the clothes overnight or for three hours in the morning.

Nothing white without boiling, without any real rubbing.

A part of the Jewett City News in The Bulletin of 30 years ago reads: The local democrats made Rome howl Thursday evening, Hurd C. Woodard, the streets and blew tin horns and such. They were not the "let-est-est-est" kind, but the "let-est-est-est" kind, the newly elected representative, especially pulled the largest possible vote. He ran out and away ahead of his ticket.

Another item reads: Israel Matherson is doing a little in the well-digging business once more. He has had some experience in that line when any other man in the county without doubt. Incidentally it might be said no well has been dug in Griswold for many a moon.

The annual meeting of the stockholders of the Jewett City Textile Novelty Company was held Tuesday. The following directors were chosen: Alexander McNicol, J. C. Worth, Frank H. Allen, Andrew McNicol, Deputy Game Warden William R. Palmer proposes to give the matter special attention and see that all impositions of the law that are brought to his notice are promptly attended to in accordance with the law. Griswold, like many other localities, has what are identified as two sorts of hunters. The legitimate sportsman and the pot-hunter, both know full well the urgent necessity for a close season on partridges in this section. In times past they have been snared

and shot indiscriminately until today the once familiar whirr is seldom heard through the woods.
